

Stay in-network and avoid costly bills

Led by your primary care doctor, your **Aetna Whole HealthSM** team strives to keep you healthy or improve your health. When you get sick or need other health care services, your doctor can treat you or direct your care across other specialties and facilities in your network.

The key, of course, is to **stay in-network**. That way you'll get more coordinated care and save money.

You can also save money with generic drugs. They're safe, effective and often cost less than their brand name counterparts. So be sure to talk with your doctor about using generics.

Check who's in your Aetna Whole Health network.

Just log in to **your secure member website**. Then click on "Find a Doctor, Dentist or Facility."
